Give Yourself a CleanStart® Colon Cleansing and Detoxifying Program

Colon health is a major concern for people today. Why? The colon is designed to eliminate waste and toxins from the body, like those found in many of today's processed foods. Unfortunately, processed foods don't supply your body with the essential enzymes and fiber it needs to eliminate these toxins. This can result in a buildup of toxic material in your colon, which can lead to poisoning or disease.

To help protect your body from common colon toxins that deplete and degrade your health, Nature's Sunshine's CleanStart

cleansing and detoxifying program provides the most complete and balanced herbal cleanse available.

- Works without posing dangerous side effects.

Ingredients

Each drink packet contains the following:

- Psyllium hulls (Plantago ovata), a soothing, high-fiber herb, is used in weight loss and is especially beneficial for absorbing bowel toxins and normalizing cholesterol.
- Bentonite. This natural, highly absorbent clay is often used to improve colon conditions including impaction and parasites.
- Aloe vera (Aloe barbadensis) juice acts as a general tonic to soothe and protect bowel tissue.
- Chlorophyll (Sodium Copper Chlorophyllin) is a natural bowel "sweetener;" it helps prevent odor, increase blood oxygen and counteract bowel toxins.
- Stevia (Stevia rebaudiana). This nontoxic, non-fattening herb contains stevioside, a natural constituent that is 300 times sweeter than sugar (sucrose).
